

*Your hand dollars represents the increase in our Global working hands:*

## DEAR GREEN PROSPECTUS: TAX YEAR 2009:

Give us 1, 10 or 100 dollars for **every finger on both hands**. This year Global Hand has gone green, so we barely write to ask for a donation because it takes too much paper and too much energy. Those on twitter only have to write one E-sentence to get results ....well globalhandincorporated.org is learning a big lesson....we have recycled all of our old extra copies of proposals and the many that were returned (either bad people or bad addresses we guessed). Some have ended up in compost... and others burned in a coal fire for cooking while our teams made lunch for pre-school children who needed a meal daily-in schools in Africa. Moreover, backs and fronts of some old proposals were stapled together and copied on to make books for students in the schools our teams started and taught at.....and -SO SORRY because some was used for toilet paper and buried in the holes we dug in the bushes to hide our personal waste as we worked with local men and women to help them better utilize their resources for survival....and maybe the goat that was up on the hospital table ate a proposal too; as these animals took over a clinic in the bush at one of the women in agriculture sites deep in the African Guinea-Mali bush (the pictures of the women with their beautiful faces shine on the cover of one of our self-published English books, see the web) This clinic was vacated due to no money to hire a doctor to service the people or the clinic.....Global Hand truly has solutions; we are the pioneers of real Giving!

OUR MOTTO IS: IF I HAVE A BOWL OF SOUP YOU CAN AT LEAST HAVE HALF! WE PROMISE TO LOVE HUMANITY AS WE LOVE OURSELVES---

Global Hand Incorporated is a smiling agency...no sad pictures of children with flies all over their faces because we provide assistance that delivers smiles and training to recycle and REPELL insects too!

We the founding fathers and volunteers are civil servants, technical people, and teachers that believe education is a passport to the future and our investment in service to humanity is part of the solution to the troubles of the world today. Our biggest lesson: most people only read trashy, gossip or fashion-food magazines and books in Oprah's book club and we R losing proper English because of texting; so just toss out the 25 page proposals and fancy mission statements, and streamline the words: and we must remember to choose working board members ONLY in 2010.... Oh Yes! The 21<sup>st</sup> century is teaching us that a few words go a LONG way—Tweet-Tweet

Global Hand Incorporated is a 501c3, non sectarian; justice orientated, and no longer wasting paper 4-grant seeking, and just trying to bring relief to SOME GOOD FOLKS ONE village at a time... We are an independent agency and want to remain that way. GIVE YOUR EXTRA GREEN PAPER AND WE WILL CONVERT IT INTO ENERGY; TO RELIEVE Poverty, and provide Education and services, moving people OUT of poverty and INTO the Good life. We service everyone regardless of race; nationality and color—starting with those on the bottom and helping those ones first TO LIVE LIFE A LITTLE LARGER! GIVING ONLINE SPEEDS THE PROCESS, GIVE AT: [www.globalhandincorporated.org](http://www.globalhandincorporated.org)
